

**STATISTICAL SERVICE**

**REPUBLIC OF GHANA  
MEMORANDUM**

**TO : ALL STAFF**

**FROM : DEPUTY GOVERNMENT STATISTICIAN**

**DATE : 9<sup>TH</sup> APRIL, 2025.**

**SUBJECT : “...APPOINTMENT OF ACTING GOVERNMENT  
STATISTICIAN”**

---

Over the weekend through social media platform specifically whatsapp, friends and a few colleagues shared the above subject with me. Since it was the weekend, there was impractical to verify its authenticity as when I left the office last Friday at 19:39 GMT no formal communication had been shared with the Service. I have monitored the conversation on the staff platform and the calls for Management to make a statement. I did sidebar a few to explain the above hence, the challenge to say anything not based on concrete sources.

Colleagues, thank you for your patience and commitment in getting our business as usual through till now and I am very grateful. As head of delegation for the Regional Frameworks for the Development of Sectoral Statistics in the ECOWAS, I did communicate with Director of

Administration and he promised monitoring and giving feedback by close of business on Monday, April 7, 2025.

He shared the feedback with me and mentioned the planned GSS Management meeting to take place yesterday to discuss emerging issues. As now no formal letter has been issued to any of the parties (Government Statistician nor Acting Government Statistician) but there have been some verbal conversations. I have also read that the Acting Government Statistician will be meeting the GSS management team this morning.

I will like to urge all to remember our vision of being the trusted provider of official statistics for good governance and also continue to be guided by our core mandate: Professionalism, Accountability, Integrity and Relevance!

As an institution, by God's grace and able leadership we have come too far to fail. The Government Statistician has dialogued and is waiting for formal communication. I will urge all to give off our best in the discharge of our mandate and also still keep the promise of each owning a Statistic!

God bless us all and make our Institution Great and Strong.

FAUSTINA FREMPONG-AINGUAH

DEPUTY GOVERNMENT STATISTICIAN
